Spring 2011

PRESCHOOL STORY TIME

AGES 3-5

Preschool Story Time is designed for 3-5 year old children. The child should be able to attend each session without an adult; however, the adult bringing the child must remain in the library for the 30 minute session. The child may decide not to remain in the program so the accompanying adult must be on premises for the duration.

Each program will revolve around a particular theme. Picture book stories will be read aloud and stories will be told (with and without props). Singing, chanting, fingerplays and other action activities are also part of the program.

Adults are asked to arrive 10-15 minutes in advance to attend to restroom needs and check the child in.

Registration is required and limited. The program is offered for the months of March and April on Tuesdays and Wednesdays at 1:30 and 3:30 PM. Please register for one session per week only. The bottom portion of this form must be completed and turned in at the circulation desk at least one week in advance.

Spring Preschool Story Time

Child's name: _____

Birth date: _____ Phone: _____

Address: _____
